into the draw for technology prizes,  
like us on Facebook

You have roadside assist for your car if it breaks down, and you have trade assistance for your home upkeep. So why ignore your home computer and technology needs? Just like your car, your computer has maintenance required daily for the latest security threats and ongoing performance updates. Let us take away the stress of computer problems by offering you our latest protection pack developed and tailored to ensure your computer is always running healthy and working at the highest levels of performance with the latest security updates.

*Social Networking, Document Sharing, Downloading Programs.  
Does this sound like your Family? Don't put them at Risk.*

Ensure your home has protection against the latest technology threats. Even reputable Anti-Virus companies don't keep up to date with the ever fast changing new world age that we live in. At Interload, we supply our premium Anti-Virus remote support and choice of a custom anti-virus tailored suit for your family.

### *What are the Risks for my Home?*

- **Human Error**  
Careless data disposal, or accidental opening of infected email attachments
- **Hackers**  
illegally break into computer systems with advanced technology skills to exploit targeted systems
- **Malware or Virus**  
Malicious software designed to disrupt computer operation
- **Fraud**  
Using a computer to alter data for illegal benefit
- **Spam, Scams and Phishing**  
Unsolicited email that seeks to fool people into revealing personal details
- **Passwords Theft**  
Often a target for malicious social engineering
